TECHNICAL SKILLS

- HTML5
- CSS3 (Flexbox, Grid, Transitions)
- Bootstrap
- Javascript
- C++
- Version Control (Git & Github)
- Visual Studio Code
- Visual Studio (IDE)

PROJECTS

Archery Hub Website   🔗 Website   Github

Archery Hub is a responsive website for an archery academy based in Egypt.

- Used Javascript to implement the image carousel on the home page.
- Implementation of the google maps API.

HTML5 | CSS3 | Javascript

Personal Portfolio   🔗 Website   Github

A Personal Portfolio website to showcase my skills and projects.

- Used Bootsrap to implement the image carousel and the scroll spy.
- Used AOS (Animate On Scroll) library to achieve a fading effect when the page is scrolled.

HTML5 | CSS3 | Bootstrap

Delivery Management Service   Github

This program simulates the placement of multiple orders in a restaurant and handles them in an efficient way. It is an implementation of the queue data structure.

C++

Paint For Kids   Github

This project is a paint replica that is used to teach children about different shapes and colors in a fun way.

C++
